DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 14-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Gartstein et al (US 6,652,478).

Gartstein teaches a microneedle array with a width of 5-50 microns and a height of 50-200 microns (Col 6) with fluid flow channel (856), a penetrating tip (804) and an inclined surface (820) Figures 32-34.

Allowable Subject Matter

- 3. Claim 13 is allowed.
- 4. The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach or suggest a microneedle with a flow path having a different centroid than the centroid of the microneedle, in combination with the other limitations in the claims.

Response to Arguments

5. Applicant's arguments with respect to claims 13-17 have been considered but are most in view of the new ground(s) of rejection.

Conclusion

6. The art made of record and not relied upon is considered pertinent to applicant's disclosure. The following disclose the claimed subject matter but are not prior art: US2006/0030812; US20050240154; US 20040267205; US 7108681; US 6808518; US 6767341.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
